

How do you measurably improve patient health outcomes while ensuring the long-term health of your business?

YOUR PHARMACY SOLUTION

The EnlivenHealth™ Patient Engagement Platform

The most proven, fully integrated medication management and patient communications solution

The Patient Engagement Platform from EnlivenHealth™ transforms the way pharmacies engage and communicate with patients, coordinate care and ensure patient adherence. Trusted by our national network of pharmacies, our integrated EnlivenHealth™ Patient Engagement Platform orchestrates advanced clinical interventions, digital omnichannel communications and sophisticated data sciences to bend the quality and cost curve in community healthcare.

The EnlivenHealth™ Patient Engagement Platform enables you to focus on providing patients with higher value, revenue-generating services such as COVID-19 vaccinations, testing and Medication Therapy Management (MTM) counseling. In the process, our proven solution empowers you to achieve consistently better health outcomes for your patients while driving script growth.

How Patient Engagement Platform from EnlivenHealth™ optimizes lifelong patient health while improving your long-term business health

Turn insights into intelligent patient engagement

The EnlivenHealth™ Patient Engagement Platform is powered by intelligent clinical solutions that automate and enhance the care experience. This enables pharmacists to connect the right therapy, with the right patient, at the right time. For example, the increased adherence achieved through the EnlivenHealth™ platform is directly linked to a 9% reduction in hospitalization and ER visits.

Transformative patient communications

Omnichannel Communications Solutions is a breakthrough solution from EnlivenHealth™ that works with our Patient Engagement Platform to integrate all patient-related events, opportunities and interactions through multiple communication channels. The result is a next level of collaboration between pharmacies, health plans and patients. Our solution enables pharmacies to actively tailor communications to patient preferences and provide personalized, accurate and timely messaging that transforms patient engagement into a compelling and convenient experience.

Powerful benefits of the EnlivenHealth™ Patient Engagement Platform

Clinical Decision Support

Ensures that pharmacies accurately target populations with clinical interventions that measurably improve quality measures

Optimize Data

Accesses multiple data sources so that pharmacies can prepare for and document ongoing patient engagement on a single web-based platform

Simplify Workflow

Patient-friendly interface enables quick and easy appointment scheduling, clinical interventions and follow-up communications

Better Patient Communications

Strengthens engagement by communicating with each patient in their preferred channel, at the right time
