

**Are you ready to deliver more high-value, clinical care services?**

## EnlivenHealth<sup>®</sup> Amplicare Clinical Solution

With declining reimbursements and rising DIR fees, pharmacy leaders and owners understand that to grow and thrive they need to move their practice and business beyond medication dispensing. Delivering personalized care and high-value clinical services not only improves patient health outcomes and retention, but increases revenue growth. However, pharmacies struggle to find the time to deliver these high-value clinical services and effectively bill for them.

### Introducing Amplicare Clinical Solution from EnlivenHealth<sup>®</sup>

EnlivenHealth's Amplicare Clinical Solution offers the right solution for today's pharmacies. Amplicare Clinical Solution provides pharmacies with the industry's most integrated and comprehensive technology that eliminates time-consuming manual processes and empowers pharmacies to deliver revenue-generating clinical services. With this best-in-class clinical solution, pharmacies can transform their pharmacy from a medication dispensing center into a thriving clinical practice that improves patient health outcomes, enhances retention and increases pharmacy revenue.

### Transform Your Pharmacy into a Revenue-Generating Clinical Care Delivery Model

Amplicare Clinical Solution is an advanced, integrated solution that allows pharmacies to easily identify patient opportunities, provide appropriate clinical care and bill for those services to measurably improve patient health outcomes and grow

pharmacy revenue. This powerful, proven solution suite brings together everything you need to establish or expand your clinical practice, all in one place. The Amplicare Clinical Solution suite includes:

Clinical Documentation	Interoperability	Medication Therapy Management (MTM)
Task Management	Appointment Scheduler	Medical Billing
Guided Care	Care Opportunities for Intervention	Promotional Opportunities
Additional services include: Immunization Registry, Automated Patient Communications and Medicare Plan Comparison Tool.		

By automating time-consuming manual tasks, pharmacists can improve workflow efficiencies, allowing more time to deliver high-touch clinical services such as: vaccinations, point-of-care testing, wellness services, medication therapy management, preventative services, test and treat and more. Expanding your clinical services allows you to enhance the patient experience, build long-term patient relationships and satisfaction, and measurably improve patient health and business outcomes.

## Powerful Benefits of EnlivenHealth® Amplicare Clinical Solution

- **Transforms your pharmacy's clinical practices and business results** to grow and thrive in this new era of digital-driven era of healthcare.
