Keep your performance measures high and your DIR fees low with action-oriented opportunities to improve patient adherence and your bottom line.

Improve patient adherence

Non-adherence significantly impacts a patient's health. EnlivenHealth® Impact identifies patients who are at risk of non-adherence and prompts you with opportunities to reengage that individual.

Keep your performance measures high

EnlivenHealth® Impact identifies patient opportunities that negatively affect performance measures and DIR fees, making it easier to prioritize your time to ensure the most significant improvements to your business.

Keep your patients healthy with Gap Therapies

A patient in need of a Statin or ACE-I/ARB is identified as a good candidate for clinical intervention, giving you the opportunity to improve their health and your DIR fees.

Keep an eye on priority patients

Using data analytics and machine learning technology, EnlivenHealth® Impact detects adherence percentages and DIR estimates, and identifies the patients with significant influence on your performance measures.

Worklist		Sort	Advanced Filters	
Gap Therapy: ACE/ARB		Total Rx Billings	Add Filter	0
<input type="checkbox"/>	Charles Espinoza Slipping Away	Trigger Drug: Hydrochlorothiazide (Oral Pill)	Current Plan BIN 610602	Review Progress

About EnlivenHealth®

EnlivenHealth builds advanced patient engagement, financial management and population health technology solutions that enable retail pharmacies and health plans to measurably improve the health of their patients and members, while ensuring the long-term health of their business. With the recent acquisition of FDS Ampicare and MarkeTouch Media, EnlivenHealth now offers the industry's most comprehensive suite of SaaS technology solutions that help retail pharmacies and health plans to transform and thrive in this new era of digital-driven healthcare. Currently, more than 50,000 retail pharmacies nationwide deploy EnlivenHealth/FDS Ampicare/MarkeTouch Media technology solutions. EnlivenHealth is a division of Omnicell, Inc. (Nasdaq: OMCL), a leading provider of medication management solutions and adherence tools for healthcare systems and pharmacies. To learn more, visit [EnlivenHealth.co](https://enlivenhealth.co).
