

Are you ready to get paid for more high-value, clinical care services?

With declining reimbursements and shrinking revenues, pharmacy leaders and owners understand that they need to expand their clinical services to grow and thrive. However, pharmacies are challenged with the complexity of medical billing and the time-consuming manual processes that keep them from delivering clinical services.

Introducing MedBill from EnlivenHealth[®]

EnlivenHealth's MedBill is a must-have solution for any pharmacy looking to expand its clinical service offering. MedBill automates and simplifies medical billing to eliminate time-consuming manual processes and empower pharmacies to manage billing more efficiently within the workflow, get paid as a provider of clinical services, and enhance cash flow and profitability.

Expand Your Clinical Services to Measurably Improve Patient Health and Business Outcomes

MedBill by EnlivenHealth[®] offers the industry's most comprehensive and proven medical billing software, enabling pharmacies to streamline billing activities, efficiently get paid for high-value clinical services, and enhance cash flow. Our fully automated, time-saving solution simplifies medical billing and transforms pharmacies into thriving clinical care services providers.

MedBill covers a wide array of clinical services and allows pharmacies to bill for everything from flu shots and immunizations to Medication Therapy Management (MTM), point-of-care testing, and beyond. Expanding your clinical services allows you to enhance the patient experience, build long-term patient relationships, and measurably improve patient health and business outcomes.

Our wide array of services include the following:

- ✓ Flu shots and vaccinations
- ✓ Supplies and medical equipment
- ✓ Medication Therapy Management (MTM)
- ✓ Diabetes prevention programs & self-management training
- ✓ Oral anti-cancer, respiratory and immunosuppressive drugs
- ✓ Point-of-care testing, including COVID-19, flu, strep, UTI, etc.
- ✓ Transitional care management
- ✓ Biometric screening
- ✓ Smoking cessation
- ✓ Medical nutrition therapy
